Clear understanding of Concepts and training in Frontend and Backend Technologies. **Motivated to learn, grow and excel** in trending Technology.

EDUCATION

Bachelor of Engineering (B.E), Computer Science

D. Y. Patil Institute Of Engineering And Technology

2019 – 2023

POSITIONS OF RESPONSIBILITY

I'm a full stack web developer. I have lots of skills and knowledge about HTML, CSS, JavaScript, Bootstrap, Python, C, C++. I'm very eager to work and learn more about the new updates related to my field of interest. I have specialization in Web Development and currently I'm learning about Data Science. I have always worked in teams so I understand how a team works and I have a good leadership quality and a good sense on how to co-ordinate with the team.

PROJECTS

Freelancing

October 2022 – present.

Me and my team have created a website for an Event in Campus that is DYPIMUN. Which will be published soon we are still working on it. This is the link to our work.

<https://dypimun.com>

Event Organiser of the college campus

I'm the leader of my all the events. Me and my team arrange and manage every fests, programs and functions that happen in my college.
